

CIG states that, at a technical conference convened on March 5, 1996, in Docket No. CP96-41-000, as amended, parties questioned the consistency of the proposed reclassification of compression facilities and also raised the issue of whether Field Services could fully recover the cost of providing gathering services using compressors proposed to be reclassified from transmission to gathering. To alleviate these concerns, CIG indicates that it now seeks to amend its pending application to retain as facilities owned and operated by CIG subject to the Commission's jurisdiction under the Natural Gas Act, the compressors at its Lakin, Morton, and Mocane Compressor Stations currently classified as transmission. It is indicated that these compression facilities consist of 31,700 horsepower. CIG also proposed to retain a 858-foot segment of pipeline with measurement facilities extending from the outlet of the Mocane Compressor Station to the Warren Processing Plant. CIG also proposes to include dehydrators at Mocane and Morton among its transmission assets. No other changes to the original application, as amended on February 23, 1996, are proposed.

CIG indicates that, as a result of the instant petition and a previous petition filed February 23, 1996, the net book value of facilities to be transferred to CIG Field Services Company will be reduced from \$36,111,594 to \$32,982,883.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before April 1, 1996, file with the Federal Energy Regulatory Commission, Washington, DC 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Lois D. Cashell,
Secretary.
